Employer Testimonials

"When Linda and Sam presented the Pathways II program I was very interested. It sounded like a win-win situation and that's exactly what it has turned out to be. We have had several individuals work here with us and they have all done a great job. They have been able to help in multiple departments and are flexible to help where we need them. One liked it so well, she still volunteers here!"

Linda has been a great mentor and coach. She keeps us informed and is on-site to help the participants. She takes their success personally and does all she can to ensure the young people succeed. Licking County Aging Program is proud to join with LCBMRDD and Community Employment Services in this very worthwhile endeavor. I only hope the funding for the program is renewed year after year so we can continue this very beneficial partnership. Thanks, Linda and Sam, for allowing us to be a part of the project!
